Mr. T. S. Kyle is in the city from Gadsden, Ala., to participate in the bond election. Mr. Kyle says slack sale of cotton is causing trouble in Alabama, but otherwise that territory is all right.

The meeting at the court house to discuss bonds last night was well attended. Editor Harris presided and a number of citizens spoke, among them Mr. R. L. Anderson, who has been a great sufferer lately from rheumatism. The bond advocates made good talks, and those against bonds kept quiet, so the meeting couldn't help being harmonious.

Mr. R. L. Anderson threw a bad scare into the Star reporter last night. He told him that if bonds didn't carry, this town would be shy about 1200 of its present population this time next year. If Mr. Anderson will pick the right people, the Star thinks it would pay the city to employ him to make about 1200 more.

Mr. Jim Johnson, the popular traveling man, who has been ill for the past two weeks at his home on Oklawaha avenue, was out and attending to business yesterday.

## Forecast for this Evening and Tomorrow

For Florida: Fair cooler tonight, probable frost north portion Wednesday.

Dr. R. T. Weaver, of Ocala, manager of the new Florida Vegetable Marketing Bureau, was in the city yesterday, and left last night for a trip down the east coast. He feels very sanguine over the future of his organization and promised our board of trade to return here at a later date and hold a meeting of Putnam county farmers. Palatka item.

## A PERTINENT QUESTION

The question has been asked, "What way are Chamberlain's Tablets superior to pills?" The answer is, "They are more mild and gentle in effect and more reliable. Be sides they improve the appetite, cleanse and invigorate the stomach, correct disorders of the liver and leave the bowels in a natural and healthy condition, while the use of pills, owing to their drastic effect, is often followed by constipation." For sale by all dealers. Adv.

## Knowledge and Age.

At twenty we know, at thirty we think we know, and at forty we give it up.

## BUY A BALE

I do not say, because cotton is not my business, but I do call the attention of Mr. Pipe Smoker or Tobacco Chewer, who buys a pound of my El Tronico Havana Cigar Clippings for 40 cents, which equals fifty good cigars, to the fact that you will find pipe smoking a pleasure. Or if you are fond of chewing, you will find this tobacco pure, unadulterated, being my own produce, the clippings of my cigar factory cut up and the dust abstracted therefrom, and containing a combination of pure cigar leaf tobacco that costs as high as \$4 a pound. A trial will convince you. This tobacco is put up in 2, 4, 8 and 16 ounce packages.

Yours truly,  
CHARLES PEYSER,  
Proprietor.

## WILL ORGANIZE IN NEW YORK

Mr. Hlanis left yesterday for New York City to attend the organization of the Florida Soft Phosphate & Lime Co., a new three quarters of a million dollar Marion County corporation which will have its headquarters in Ocala, and will soon get busy in developing some of our great latent resources.

## No Necessity for Stamps.

In New Zealand the postoffice provides big firms with machines, with which they stamp their own correspondence. A specimen letter received bears an oblong "postage paid" stamp which is put on by a machine in the business man's office. Periodically a postal collector calls round, reads the total on the machine and collects the money.

## Shameful Omission.

Amid all the humane enterprises of this wonderful century there has been no society yet formed for the protection of young men from young women. —From "One Man Returns," by Harold Spender.

## He Kept on Climbing.

"Have you ever heard Jimkins relate about the time he got half way up Mont Blanc with one of his little nephews and no guide?" asked one man of another. "How long ago did he tell you about it?" was the evasive reply. "Last March, when he'd just got home," said the first man. "Well," said the other, "in eight months since then he has climbed the rest of the way, succeeded a fainting guide and sustained a snowstorm on the summit, resuscitated two numbstruck strangers on the way down and guided the entire party to the foot, where a group of frantic relatives was waiting."

## Perfectly Justifiable.

A somewhat laggard and procrastinating student one Sunday evening went to his instructor for aid in one of his studies, asking him if he thought it was wrong to study on Sunday. He was somewhat surprised to receive the reply, "If the Master was justified in pulling the ass out of the ditch on the Sabbath, was not the ass justified in trying to get himself out?"

## Light From the Earth.

The darkest part of the sky is always aglow. The earth itself gives off a lot of light. Scientists of the Franklin institute have measured this earth light and have found that it is of the order of one-tenth part of the intensity of a star of the first order of magnitude. It is attributed, at least partially, to a permanent aurora borealis which is revealed by the characteristic green ray observed on obscure nights in the whole heavens.

## Not a Theatrical "Fan."

Reuben—"Silas don't seem to care much for the theater." Hiram—"No, he don't. When I was with him in New York we went to one of them continual performances, and we wasn't there more'n three or four hours afore he got tired."
